

Quality & Manufacturing of ITG Supplements

You can rest assured that when you order supplements from ITG you are receiving a top quality, professional-grade nutritional supplement formulated and manufactured according to a "Science First" approach. All of our private label supplements are a pharmaceutical grade level that are only sold through Health Care professionals and are manufactured by major US Supplement Manufacturers.

Good Manufacturing Practices (GMPs)

Our manufacturers fully guarantee that our products are produced utilizing the highest standards of manufacturing. Each product is evaluated and monitored for quality throughout the manufacturing process.

- Contains only qualified, superior raw materials
- Meets required specifications for quality and purity
- Is evaluated and monitored for potential contaminants such as dirt, heavy metals, pesticides, and microbiological organisms (packaging is also monitored to ensure against contamination)
- Is analyzed to confirm the quantity of all dietary ingredients, thereby ensuring the consistency and accuracy of our label claims
- Is manufactured at FDA inspected facilities with stringent internal quality control procedures and documentation systems that conform to one or more of these industry standards and/or certifications: NPA (Natural Products Association), NSF (National Sanitary Foundation), OTC (Over the Counter Drug GMPs), and the requirements of the FDA Dietary Supplement Good Manufacturing Practices (GMPs)

Our dietary supplements exceed industry standards for quality. Their evaluation criteria are designed to corroborate all aspects affecting quality and efficiency, specifically:

- Identity
- Purity
- Quality
- Strength
- Composition

ITG offers the following supplements:

- Multivitamin
- Calcium & Magnesium
- Omegas – Soft Gels
- Crave Away
- Thermo Tonic
